

## HACKSAW BLADE

## Product Description

High Speed Power hacksaw blades of high-speed steel satisfy the highest requirements for power sawing bars, tubes, sections, etc. High Speed blades are specially hardened and precision set.

## Product Specification

Color	Silver
Application	Industrial
Material	Iron

### Features:

Blades are manufactured entirely from topmost quality M2 High Speed Steel, each blade is precisely hardened throughout its entire width to give a strong, rigid back, ensuring a perfectly straight cut time after time. These blades are ideal for long wear life and top performance in sawing a wide range of materials, including those that are most difficult to cut.
